

Websites to support Literacy

The following websites can be used to support learning at home. Please always ensure that you are able to guide and direct your child if they are using a website for the first time. As a school, we cannot guarantee that websites will not change their content or how they present their information. Some websites will require more navigation than others and children will need adult support.

If you use a search engine you should be able to access appropriate content with the following links. Please be aware that many of these sites include learning for children across the Primary age range.

Literacy shed

Literacy Wagolli

Hello good stuff

classtools.net

skills wise

twinkl

bbc.co.uk

bbc bite size

TES

Mrs pancake

Primary resources
